

Why AgGuard®?

The Original

We were the first to offer extended service contracts to the Ag industry. For 25 years, we have pioneered new products and earned our unmatched reputation for innovation and treating folks right.

A Name You Can Trust

In our line of work, a handshake is more than just a greeting—it's a symbol of trust and commitment. Our 25 years of success come from a simple principle: doing the right thing. Fairness isn't just a policy: it's our way of life.

Your Business is Our Priority

We don't just offer services; we offer a partnership. We're dedicated to genuinely caring for your business needs and actively working to minimize your risks. Our philosophy is simple: when you succeed, we succeed.

Peace of Mind

Life is tough enough. You have no control over many things, from the weather to the price of fuel. Sometimes, you do everything right to maintain your equipment and still suffer a costly breakdown caused by an unknown defect—a ticking time bomb out of your control. Let Ag Guard and your dealer help manage the risk so you sleep better knowing a bad day at the factory isn't your problem.

Professional Grade Coverage

Our plans are designed for business. You know how to manage the risks you can control and reserve for predictable breakdowns. We cover unexpected failures caused by defects in workmanship or materials—unpredictable expenses that can wreck your total cost of ownership calculations. See Ag Guard Terms & Conditions for detailed explanations of coverage.

Fair Pricing

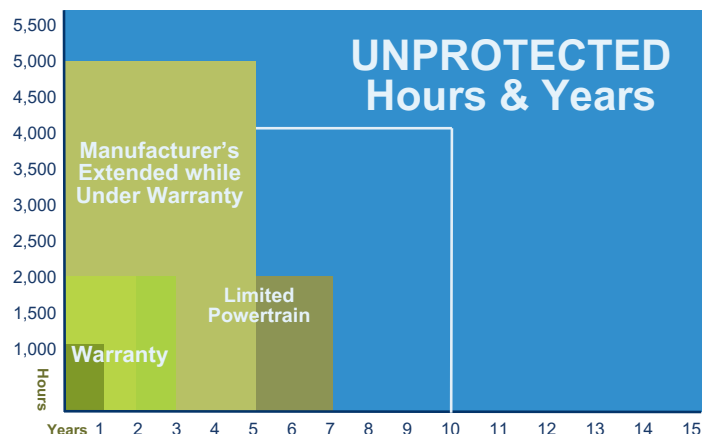

Think of our prices like custom-made boots that fit you perfectly. Instead of just looking at what everyone else is paying, we use our 25 years of know-how to figure out a fair price. We look at how old your machine is, how much it's been used, and what kind of work it's doing. Plus, we learn from the past to make sure the price fits our actual risk. This way, you get a deal that's really worth it and tailored just for you.

Direct Access to Experts

No Call Centers here! Tired of automated responses? With us, you'll always reach an expert who is ready to assist you. With us, claims are processed swiftly and efficiently.

Flexibility

Don't let the end of your warranty leave you vulnerable. Ag Guard seamlessly integrates with the manufacturer's coverage, ensuring continuous protection when you need it most.

Boost Equipment's Value

Trade smart, gain more! Did you know? Trading in your equipment with active coverage can significantly increase its value—often more than the cost of the coverage itself. It's like protection that pays for itself! Whether you choose to trade or keep your machinery, we've got options for you. Extend your coverage with more time or hours at a budget-friendly rate.

Only Available from Equipment Dealers

Our commitment to quality is evident as Ag Guard contracts are exclusively available through equipment dealers who understand their clients' needs and are dedicated to their prosperity.

Tailor Coverage to Fit Your Operation

Whether it's new, used, or equipment you already own, only pay for what you need. You pick the best plan for you.

- Coverage Type:
 - **Powertrain**—Covers the internal components of the engine & drive train
 - **Powertrain + Hydraulic**—Adds pumps and other hydraulic components
 - **Platform**—Adds items like the starter, alternator, and A/C compressor
- Time: Options available in yearly increments from 1- 5 years
- Hours: Only pay for the exact engine hours you need in 1-hour increments
- Deductible: \$0, \$250, \$500, or \$1,000
- Limit of Liability: Choose your own LOL (*No one else offers this flexibility*)
- Options: Get quotes for multiple options to help decide the best fit
- Coverage goes with the machine—90 days to cancel for a full refund
